338+	2	30	14

Thus if a player rated 1056 wins against an opponent rated 1258, the lower rated player would gain 24 points, and the higher rated player would lose 24 points. So the new ratings would be 1080 and 1234 respectively.

If this game were drawn, the change in rating for both players would be 8 points.

If the 1258 player wins against the 1056 player, then the rating change again is 8 points. This is based on a rating difference of 202 points.
